Languages: TypeScript, Python, Node.js, JavaScript, PHP.

Frontend: Next.js, React.js, Tailwind CSS, ShadCN

Backend: NestJS, Express.js, Django REST Framework, GraphQL/REST.

Databases & Caching: PostgreSQL, MongoDB, SQL, Redis, TypeORM.

Integrations: ChatGPT API, Gemini API, OpenRouter, Stripe, Twilio, Square, QuickBooks, Zoho.

Tools

Visual Studio Code, Visual Studio, Cursor, Claude Code

Experience

Software Engineer

Scaylar Technologies | Lahore, Pakistan, May 2025 – Present

- Developed and launched 4+ production-ready projects, including 2 Django/Next.js and 1 NestJS/Next.js application built from scratch.
- Integrated AI-powered functionalities across multiple platforms using ChatGPT, Gemini, and OpenRouter APIs.
- Implemented complex third-party integrations for payments (Stripe, Square), accounting (QuickBooks, Zoho), and communication (Twilio).
- Designed clean, efficient architectures and APIs to support high-performance business workflows.

Associate Software Engineer

Micro Data Tech Solutions, Dec 2024 – May 2025

- Worked as a MERN Stack Developer, gaining experience in multiple projects.
- Worked with relational and non-relational databases to manage data efficiently.
- Developed backend solutions using Node.js and Express.js and typescript.
- Utilized React Query for efficient data fetching and state management.
- Implemented Redis Cache for optimizing performance and reducing load times.
